OASIS Virtual Care Launches Innovative Virtual Nursing Model to Modernize In-Patient Care

FOR IMMEDIATE RELEASE – OASIS Virtual Care (oasisvirtualcare.com) headquartered in Omaha, Nebraska – announces the launch of its innovative virtual nursing service, designed to redefine care within the in-patient setting. Leading the healthcare industry with its VirtualAlly Model of Care, OASIS promises to be an ally for hospital partners, enhancing the capabilities of bedside care teams with cost-effective and flexible services.

OASIS is deeply committed to the principle of partnership, positioning itself as a service provider partner, and a true ally in healthcare. “In the realm of patient care, trust and support are paramount. That’s why being an ally is the essence of our approach – it’s in our DNA. Our vision is to end nursing workforce challenges by supporting nurses, families and patients,” says Jeff Broz, President and CEO of OASIS.

The company is built on a foundation of more than three decades of experience in virtual nursing practices, bringing substantial expertise from collaborations with some of the nation’s most prominent health systems.

OASIS is committed to alleviating the pressures faced by bedside providers. The services are designed to enhance attentiveness to both patients and their families, ensuring that every aspect of care is handled with empathy and efficiency. “At OASIS, we understand the nuances of program adoption within various cultural environments and are equipped to adapt to the diverse coverage demands,” Broz adds.

With a vision to seamlessly integrate virtual assistance into traditional healthcare models, the company and its allies aim to deliver the utmost value to their partners, patients, and families. Adding virtual allies to care teams will ease workloads and improve the overall healthcare experience.

The arrival of OASIS and its VirtualAlly care model mark a significant milestone in the evolution of healthcare delivery. As they collaborate with select partners, their mission is clear: to be the greatest care team ally in today’s dynamic in-patient environment.
